

TC Series Thermal Profiler

TCK Series Thermal Profiler

The high temperature profiler used for high temperature test at long time, Include the thermal profiler and high Temperature Insulation Boxes, The products are applicable to many industries such as electronic processing, painting, hot setting, food preparation, ceramic burning, metallurgy, etc.

Insulation boxes Size: 300mm×180mm×80mm

Duration at High Temperature of the Thermal profiler:

Temp	150℃	200℃	250℃	300℃	350℃
Duration	120min	90min	60min	40min	20min

Insulation boxes Size: 400mm×200mm×120mm

Duration at High Temperature of the Thermal profiler:

Temp	200℃	300℃	400℃	500℃	600℃
Duration	180min	90min	40min	20min	10min
